

SLEEPING BAGS

SLEEPING INDIAN DESIGNS SLEEPING BAGS

Lamilite® is the only synthetic insulation product that compacts as effectively as down, yet it retains its insulation value when wet, while down literally falls flat. Lamilite® re-lofts instantly when taken from the stuff sack. Lamilite® construction eliminates the need for baffles so the fill is the same thickness throughout the bag—no more cold spots! Our bags are completely machine washable, and repeated launderings are no problem. In fact, we recommend you wash your bag after every trip to maintain maximum insulating value.

KODIAK II SLEEPING BAG

A tapered mummy bag with enlarged foot area, baffled zipper closure, internal draw cord for girth adjustment, drawstring hood, pillow and 11" x 23" compression stuff sack. Rated to -40°F. Color: black. Size: 80" or 90" Weight: 6.5 lbs. **Code: S-B/458**
